To whom it may concern.

Dear all,

I have been asked to introduce the product **Best T.P.S.** to my clients almost 18 months ago. In the beginning I was very skeptic and reserved to this new idea, since during my 25 years carrier in the tyre business I have seen several products promising almost the same effects.

The retail price was right for the market and my margin was sufficient so I started, buying only one drum to test the product. I prepared a demonstration unit, using an old tyre and a 10mm screw. I noticed that my clients were very much surprised seen how quickly the patch was formed, just by turning the wheel half a turn.

So good rumors started to spread around and I got new clients who come to my shop just to buy the product. At the same time I have the opportunity to sell more new tyres, always with **Best** in them.

Now, after 18 months involved in this business I sell 4 to 5 drums per week.

I am convinced that **Best** is a very good product, contributing to the increase of my turnover and my profits. I recommend it without any doubt or restriction.

George Hatjakis
