

ΟΤΟΣΟΛ (TYRESOLES HELLAS) ΑΕ

Athens, March 14<sup>th</sup> 2006

To whom it may concern

Our company, **AUTOSOL s.a.** is the major recapper and retreader of tyres in Greece, dealing with clients both in the country and the Balkans.

Over the years we doing business with the company **Best Tyre Protection Sealant Int'l**, we had the opportunity to test their product in several occasions and the company's ethics in the market. We feel enthusiastic for both.

The product, protects the casing from extensive damages, therefore we can easily retread it.

**Best** maintains both the casing and the tread and its functionality have exceeded our expectations. Further more since the product is water soluble, we can very easily clean the old casing with water and recap it.

We highly recommend **Best TPS** to any one, who wants to maintain his tyres, extend their life and have them retreaded.

Sincerely yours

Ntinis Riris  
Owner
